PROFESSIONAL SUMMARY

Frontend-leaning full-stack software developer with over 3 years of experience building web and mobile applications for startups, agencies, and internal enterprise use. Strong background in UI architecture, design systems, CMS-backed platforms, and API integration. Comfortable owning features end-to-end and collaborating in remote, cross-functional teams.

TECHNICAL SKILLS

Languages

TypeScript, JavaScript, Dart, SQL

Frontend

Next.js, React, Tailwind CSS, SCSS

Mobile

Flutter

Backend & Data

PostgreSQL, Firebase, Node.js REST APIS, Express

CMS & Platforms

Sanity CMS

Tools

Git, GitHub, LightHouse, Figma

EXPERIENCE

Freelance Software Developer

02/2024 – Present | Tema, Ghana

Remote

- Built and delivered multiple client-facing and internal web applications using **Next.js, Tailwind CSS, SCSS, Astro, and Sanity CMS**.
- Developed a live website for **Pageline Concepts**, a branding and creative agency, focusing on performance, SEO, and scalable content management.
- Built an internal analytics dashboard for **MashHarder**, an e-sports platform, integrating backend APIs to support operational reporting.
- Designed and implemented a company-wide **design system and component library** to support MashHarder's upcoming product redesign.
- Developed several bookmaker web applications for clients using **Next.js, Firebase**, and API integrations.
- Led frontend and Flutter mobile UI development for MashHarder, implementing core screens, navigation flows, and reusable components.
- Currently developing **Shelfer**, a web and mobile inventory and sales management platform with dashboards, agent workflows, and real-time synchronisation.

Software Developer

02/2022 – 02/2024 | Accra, Ghana

MarkApp Ghana

- Developed an internal **Flutter + Firebase** application for **Access Bank Ghana**, used to register and manage attendees at corporate events.
- Mentored junior developers on responsive design, accessibility, and frontend fundamentals.
- Refactored and optimised React and Next.js applications using TypeScript and SCSS to improve performance and maintainability.
- Collaborated closely with designers and backend engineers to implement features from Figma designs and APIs into production-ready interfaces.
- Led frontend development of **Trilo**, an Android application that onboarded over **1,000 businesses within 6 months**, contributing to a **35% expansion** in client offerings.
