Summary

Front End Developer with 2 years of experience and a focus on modern JavaScript frameworks, particularly React. Adept at delivering code that adheres to modern web standards including responsive design and cross-browser compatibility. Passionate about leveraging innovative tools and techniques to drive progress. Previous digital agency exposure and experience in Figma design tool. Also well-versed in CSS frameworks such as Tailwind CSS, SASS/SCSS and Radix UI. While lacking Dutch proficiency, I bring a strong foundation in English for effective communication.

Experience

Software Engineer

MarkApp Ghana

Feb 2022 - Present (1 year 9 months)

- Modified existing codebase with React, SCSS, and Next JS with responsive design and multiple browser support resulting in increased adoption rate.
- Collaborated with backend team to design and develop UI mockups for all 12 pages of website concept using Figma, React and Next JS.
- Designed and developed 15+ component library using Radix-UI enforcing accessibility and consistency across multiple applications.
- Led the migration of database from Firebase to MySQL which leading to decrease in load time by 35%
- Mentored front end developer interns on company standards and best practices in React, enabling them to achieve professional growth and personal goals.

Software Engineer Intern

Kologsoft

Jul 2017 - Jul 2019 (2 years 1 month)

- Collaborated with backend engineers to integrate backend code into multiple frontend designs enabling timely delivery.
- Designed and updated layouts to meet usability and performance requirements
- Collaborated with senior developers to build an Android application for radio which has over 400 users.
- Demonstrated expertise in sales and marketing by successfully onboarding over 10 customers on a POS system, driving its adoption by over 200 customers
- Developed a school management system side project, implementing attendance monitoring and subject scheduling with mentorship from senior developers.

Skills

Next.js • REST APIs • React • TypeScript • JavaScript • Figma • SASS • Tailwind CSS • Radix UI • Representational State Transfer (REST)
